

Model : YZ450F  
Year : 2010 - 2012  
Part No : FA-001-YA-11

1. Remove the lower radiator shrouds by removing the bolts circled in figure 1. Also remove the plastic radiator guards/louvers

Figure 1: Mounting bolts for the lower radiator shrouds

2. Remove the 2 mounting bolts from each radiator. Remove the two engine brace bolts circled in figure 2

Figure 2: Radiator shrouds and engine mount bolts removed

3. Loosely bolt the radiator guards using the two radiator-to-frame bolts on each side. See figure 3
4. Install the left and right braces by fastening the engine brace bolt and the upper brace-to-radiator-guard bolt (as circled in figure 3a).  
Note: the left hand brace has a 4mm spacer/washer to space it out from the bike frame

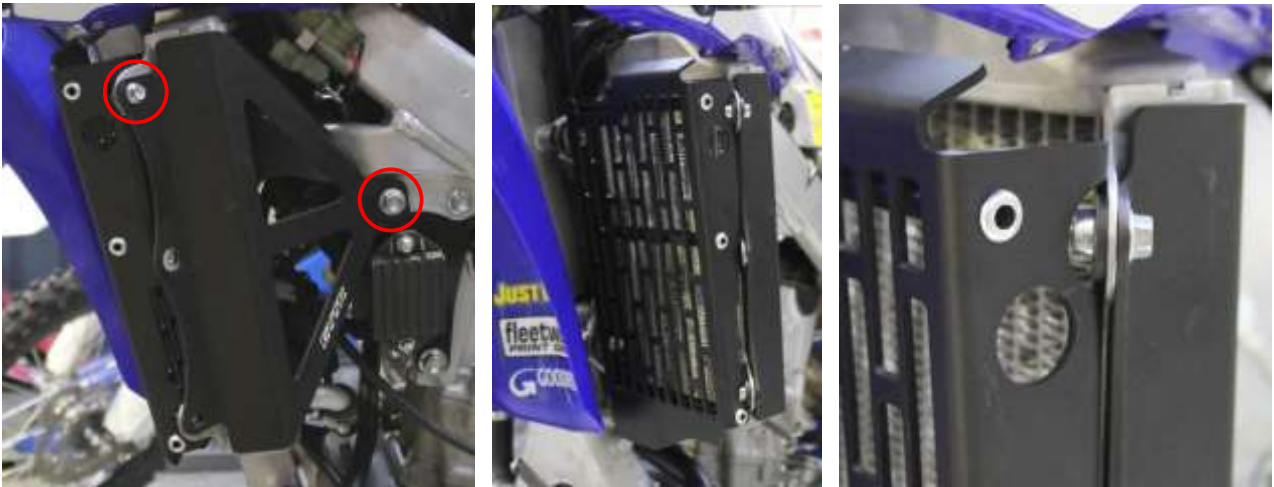

Figure 3: Fitted guards and braces, ready for the lower radiator shrouds to go back on

5. Tighten the radiator mounting bolts
6. Refit the lower radiator shrouds.  
Note: they will sit more proud of the radiator due to the guards
